4. Bulk order Tab: This section is wrong. We want it like the bulk order page to look like this provided link: http://netizenssoft.com/nutrivapors/bulk-custom-order - Difference we want from the provided link:
    a. **Vial Size: 10ml, 30ml**

6. The home page "Shopping cart" buttons under the products are adding the items strait into the cart. We need it to go the products page so they can choose their nicotine content

7. In this link of the shopping cart, we need it to place items that are different variation into different posts. When I tried to add a 3ml ejuice and a 4ml ejuice, of the same flavor, it added it into 1 post saying Quantity [2]: http://192.254.233.173/~rajeshch/nutrivapors/shopping_cart.php

8. Home Page – In the home page banner, the words are overlapping for a slight moment when the slides switch. Can you reduce the lag or make it so the words from different slides don't overlap

9. In this image below, where it says "*Size", it need to be editable. This variation of "Size" is not for every product. Some of the products are only different in color or voltage, etc…
